Speaker: Allis Druffel, So. Cal. Outreach Director for Interfaith Power & Light

Water scarcity and inadequate supply of pure drinking water is a dire issue we confront locally and globally today. As Sisters of St. Joseph of Orange, we unite ourselves with Pope Francis and all people of goodwill in addressing environmental degradation of our common home. Our Laudato Si' Action Plan centers on water as a source of life for all creation and not as a mere commodity. This presentation will provide us with a deeper sense of connection with all that is life, beauty and creation.
