My Reflection over this period Season of Creation,

I have sincerely enjoyed and adored the opening ceremony of the Season of Creation “Living Water”.

It is this “spirit”- this faith and belief in us- that helps to see our world in more beauty. Our most beautiful World, created by God, is gifted to us- to enjoy, to wonder and to be good shepherds in.

It is this understanding, this deep knowing, that God is the creator of All Good, of all humanity and all living creatures, the oceans, the skies, the birds - that warms our hearts.

Pope Francis, in his life and in his living examples, speeches and publications- has demonstrated himself, what it is, and how it changes everything- if we have the courage, passion and compassion- to walk in these hands. To become. To trust. To see joy and to be guided in the steps of St Francis, Jezus, and our Lord.

Laudato Si! Fratelli Tutti! Delexis nos!

This gift by Faith, is a treasure not only in our Season of Creation- but a treasure in our Lives.

It is within, as it is, outside- everything God created.

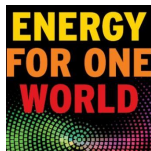

Now then,

Another, and not unimportant feast to my eyes has been the most recent travel and journey Pope Leo XIV made to France. Here again, in words, in gestures, in encounters and in seeing joyful Stade de France and near million at the Holy Mass at the Place de la Concorde- made tears to my eyes. Yes- we are there, and yes, we can make our world a beautiful place to live.

In my work, and mission, I off course also tuned-in to the speech given by Pope Leo XIV in Metz, at the Schuman Conference Center- and on Peace and Europe,

To highlight a bit, how “special”this was for me to see: -

Two weeks earlier, and as a small miracle, I was asked in and invited to partake in the House of Jean Monnet at Houjarray (the other Founding Father of Europe)- to go in dialogue with

30th September, 2026

Eurocrats, High Representatives- on the Outlook in Europe on Peace, its Economy and going about.

This visit to the “House of Monnet”- has given a certain impulse to the voice and work in our mission (“living water: ”), and as I can confess- guided by faith, spirit- it was a small wonder how I was seated on the first day, at the dinner table- next to Joane Drake, the second lady in command of EU DG Innovation- and who appeared to be a Lady born from Malta.

As I re-called to her my visit to Assisi, and also to learn from the late Fr. Maximilian Mizzi - interfaith peace dialogues (CEFID), I was seldom surprised how Joane was also touched by Assisi, St Francis- and most happy to learn my learnings also from me- on Assisi, Peace and the journey taken.

That I call: small miracles in our Season of Creation.

Let me conclude,

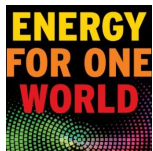

For me, and one of my challenges in my (humble) Mission Energy For One World remains- to see the time to spend in the more sacred environments, and be not too much touched by the “games of our world”

I have a good and healthy daily rituals of prayer, devotion and attending church services, but I know and believe that my work will further thrive, if I was surrounded or living in a true “Season of Creation Living Water” community and care,

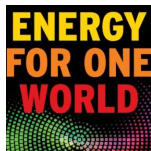

Presently I work and live from a fine apartment in Benoordenhout The Hague, actually in a small forest and on a old estate (Arendsoog/ OostduinPark). I am caretaker of my 92-years, vulnerable parents at home (and who I deeply love and care about),

My hope and trust is that mission EFORW will see its relevant support, and that, as I am yet only 65 years young, I will be given the time and opportunity to further my walking in faith, and sharing with the wider world,

Given
with Peace and All Good

Mission Energy For One World Foundation- Navigating our shared Future

Energy For One World (EFOW) is a strategic mission dedicated to inspire and encourage transforming our global energy-economy architecture and leadership to meet UN Sustainable Development Goals.

Founded by Adriaan Kamp, the mission is to guide and inspire corporate leaders, political decision makers, and international organizations and based on a simple question, and ideal:

How do we fuel and provide energy to all people of this World, reliable, sustainably and in harmony (ie "stay out of trouble") ?

How do we create Energy-Economies "Free of Concerns"? For You, for Me. For the Whole Today, Tomorrow.

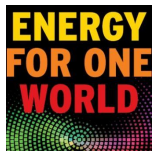

For the **2025-2026 campaign**, the mission focuses on the lessons learned over our "Decade of Action," and calls for a systemic shift from our current fragmented energy markets and models toward a better attuned, sustainable "System B"- for the century we are in.

We do not just observe the future, we help write it. By bridging the gap between conscious leadership, practical energy solutions, and the UN Sustainable Development Goals- we provide "the stepping stones" for a stable, prosperous, and unified world.

Through world-class speaker engagements, dedicated action teams, and visionary publications, we inspire forward-thinking leadership to turn high ideals into realities.

Let us shape tomorrow, today. Explore our body of work, book a consultation or speaker engagement, or join our mission for a better future.

Mission Energy For One World Foundation is made possible by individual private donations and philanthropy.
